No. 319.

To

The Asst. Govt. Experimental Farm
Bangalore

The Superintendent's docket No. 25 of the 31st ultimo, requesting sanction to the transfer of Rs. 300 from head V "Carrying on the Farm" to head III "Buildings".

With reference to the above observed that in his letter No. 101 of the 26th February last, Mr. Harman proposed a sum of Rs. 500 being transferred to head "Buildings" to defray the cost of converting certain existing buildings on the Farm into an Overseer's Lodge in lieu of constructing a new building. The above sum of Rs. 500 was further to include "the alteration of a piggery so as to answer for a blacksmith's shop". These suggestions were approved by Major Clarke, while in charge of the Division, and sanctioned by the Chief Commissioner - see para 5 of his Order No. ⁴⁴⁰₁₈₃₈ of the 22nd March last.

2. In the absence of any detailed information, it is not understood why the alterations were not carried out within

the sanctioned allotment.

3. The actual expenditure under head III "Buildings" up to July last exceeded the grant by Rs. 54-1-0. Mr. Harman will be good enough to report the nature and extent of the alterations that have already been actually carried out up to date and the cost incurred, and further to explain why the allotment was exceeded without previous sanction.

The Commissioner, Landrecoog Sd.,
No. 53 dated 12th December 1878.
Sir,

With reference to your No. 319 of the 16th September 1878, I have the honor to enclose in explanation an estimate of the probable expense of constructing an Overseer's Lodge with store rooms and godowns for the experimental Farm made by an estimator furnished from your Office, in which it will be seen that the total amount required is Rs. 2000, irrespective of a further unestimated amount for altering a pig shed into a blacksmith's shop.

2. I have also the honor to submit

a bill of the actual amount expended in constructing and altering buildings; vizt, altering a pig shed into a blacksmith's shop and converting the former blacksmith's shop into an Overseer's Lodge. As being informed of the probable abolition of the Farm the godowns and privy have not been constructed.

The actual amount expended as per Memoirs enclosed is Rs. 927-7-1, the saving being due to the partial re-use of material, to convict labor being largely employed and to a store of chunam already in stock on the farm being utilized.

In my budget estimate an amount of Rs. 500 was sanctioned for this work which I regret has been exceeded, as it was found impossible to build a lodge sufficiently commodious to accommodate an overseer and a family of eleven children and to execute the other alterations on that amount. Sanction for transfer from other headquing would have been solicited at the time the expense was incurred had I not been on tour, but as there was no one in charge of the Farm on whom I could rely to furnish me with a proper statement, I was forced to wait until my return to head quarters: still as the buildings

buildings were urgently required, I considered
 it best that their construction should be
 proceeded with so that my overseer might
 become resident at as early a date as pos- 3
 sible. It was also impossible to say
 before hand to what extent, old material
 and farm products could be rendered avail-
 able. As the building is now complete
 with the exception of the portions named,
 I solicit sanction for the following trans-
 acts, which will meet the excofs under
 the head "Buildings."
